LVO Status	Trials	Outcome
100% LVO, no EVT	TRACE-III, CHABLIS-T II	Clear benefit
Mixed LVO (60-70%)	HOPE, EXTEND	Benefit with imaging
Distal occlusions	WAKE-UP (34% intracranial, mostly distal)	Benefit with MRI
Low/unselected LVO	TWIST	No benefit
100% LVO + rapid EVT	TIMELESS	No benefit
